from the beginning i had an idea to revolutionize the way cuisine and cooking are (not) embraced AND to redefine the way natural hair and self-care were practiced. their copy and visual services helped naturi beauty fuse food and hair, a seemingly ambiguous pair and present it in a way that hits home. voz visual took my seed, watered it, nurtured it and helped us blossom.

Shelley Chapman,
Naturi Beauty Concepts

CASE STUDY

COMPANY

Tasha Hussey Designs

COMPANY BRIEF

Tasha Hussey, a clothing/jewelry designer based in the metro-Atlanta area, approached Voz Visual seeking a Web site to promote her clothing and accessories line.

RESULTS

After a preliminary review of Tasha's brand we agreed that a full rebranding effort was in order. First we surveyed her to get an idea of her specific place within her market. We then researched her competitors and over the course of two weeks developed a logo she felt reflected her style.
